

Stone Effect Water Butt

Stone Effect

Stone Effect Water Butt

The Stone Effect water butt has the appearance of a natural stone wall. This space saving water butt has a capacity of 300 litres and comes in three attractive stone effect finishes.

The Stone Effect Water Butt features include a 3/4" brass threaded connection point on the front, side outlet for draining or connecting to another tank and a child safe lid.

Granite and charcoal butts are supplied with a chrome tap and the sandstone butt with a brass tap.
